Course Calendar
TBD

(All Unit Deadlines are due at 11:59 pm)
All assignments will become unavailable on Blackboard once the deadline has passed.

Chapter Quizzes

There are 13 Chapter level quizzes in this course and no cumulative exams. The design is to assess your reading comprehension and your ability to recall information from multiple chapters. The testing window for the assigned reading will be the start and end date of a given unit (see the course calendar for details). Each quiz must be completed within the unit it was assigned.

Each quiz covers material from the assigned chapter. The format for each test is “open book” and each quiz has a time limit. There are a plethora of resources that have been provided to help you succeed in the course, ranging from the textbook publisher’s website, to virtual lecture/PowerPoint presentations for chapter. It is the unsecured nature of the distance education environment that mandates that you are highly prepared before each test. These restrictions provide a measure of integrity for the course exams and help secure your identity.

The quizzes are automated; they are generated from a pool of hundreds of questions. The grade will post immediately after submission. Each student will have two attempts per quiz. The higher grade will be recorded. If you do not finish an attempt, it will count as a zero. There are 20 randomly generated multiple-choice questions per test. You will have 50 minutes to complete each quiz. By design, there is not enough time to look up each question. You must be prepared for each quiz by reading the assigned chapter. Do not procrastinate; give yourself time to complete each quiz in sequence as you progress through the unit. Once a test has started, you will not be able to leave, back out or close the test screen.

Discussion Forums
General guidelines for Discussion Forum Activities:

Each forum activity consists of two postings, a primary thread and a reply posting. The primary thread is to be posted 48 hours ahead of the unit deadline, providing your peers the opportunity to offer a meaningful reply. Both postings must be made by the deadline for each unit for the assignment to be considered complete. Discussion activities are excluded from the late work policy. This is a "conversation" between classmates, so it must be timely. Grades will be posted after the Unit deadline, to allow everyone an opportunity to participate.

Please post your word count at the end of each and every posting made in the discussion forum. The expectation is that students have completed the assigned readings prior to engaging the discussion topic, and not before. This allows the discussions to remain relevant to the assigned topics. You may not go back and address discussion topics once the Unit has been completed. The deadline for the discussion postings will be the end of each Unit as noted in the syllabus. Again, this is a two part activity. Both the original and reply posting must be submitted for the activity to be considered complete.
Part I - Original Posting Guidelines:
During each unit, you are expected to post an answer (in your own words) to the primary set of questions posed for the discussion forum. Please do not wait until the deadline to make your submission. You and your peers are expected to reply to each other's posting, so try to allow enough time to reply. Each activity involves an element of independent research and critical analysis. The questions address your understanding of central themes in the textbook and your ability to think critically about the course material.

Your responses are to be in essay format. Be sure to fully explain your position, citing a high quality source as evidence if needed. The course textbook, Wikipedia, an online blog and similar items are examples of unacceptable sources on the collegiate level. The grade for the primary posting will be determined by the quality, depth and originality of your writing. The minimum writing requirement is 250 words for the original posting, be sure to add your word count at the end of the posting.

Part II - Reply Posting Guidelines:
The second part of each discussion forum involves a reply to a primary posting made by at least one of your peers. You may choose to reply more often, but the minimum expectation is for each student to engage in a dialogue with one person in each forum. It is preferable that you reply to a posting that does not have any replies, so that everyone may receive some degree of feedback. Your reply or comment doesn't need to be quite as extensive as the original posting, but it must be of substantial academic and intellectual value. Be sure to directly address the main points made in the original posting. The minimum word count is 150 words per reply posting, be sure to add your word count at the end of the posting.

Writing Assignments:
There are two writing assignments in this course: Students will watch a short video documentary online and answer objective as well as short essay questions. The content of the video is related to topics covered in the chapters. The second assignment consists of selecting a local government issue and writing an editorial to the local newspaper. More details along with guidelines on these assignments will be available on the course home page on Blackboard.

Extra Credit:
Students have the opportunity to earn extra points by submitting additional assignments as described under the link “Extra Credit” on the course home page in Blackboard.

Online Course Attendance

Students are expected to log-in and utilize e-campus for a total of three hours per week in a regular semester. You will also need to dedicate about the same amount of time to studying and working on assignments (approx. 4-6 hours total). In shorter semesters, where a week is equivalent to each day, that means you should plan to have 4-6 hours per day for successfully completing the course. As a general expectation, you should login to the course and check your e-mail three times per week (or once per day in a mini-term).

You are free to work ahead at your own pace. However, be sure to avoid falling behind. Each unit deadline will serve as a benchmark for your overall progress in the course. Remember, the distance education environment requires a high degree of self-discipline and intrinsic motivation. As you probably know, successfully completing an online course requires a special dedication. So, my advice is to make a schedule for this course and stick to it. Trying to work on all the assignments just before a deadline is the recipe for disaster.

Institutional policies:

Stop Before You Drop - 6 Drop Rule: For students who enroll in college level courses in the fall of 2007, Texas Education Code 51.907 limits the number of courses a student may drop. You may
drop no more than 6 courses during your entire undergraduate career unless the drop qualifies as an exception. Your campus counseling/advising center will give you more information on the allowable exceptions. Remember that once you have accumulated 6 non-exempt drops, you cannot drop any other courses with a "W". Therefore, please exercise caution when dropping courses in any Texas Public institution of higher learning, including all seven of the Dallas County Community Colleges. For more information, you may access https://www1.dcccd.edu/6drop

Withdrawal Policy: If you are unable to complete this course, it is your responsibility to withdraw formally. The withdrawal request must be received in the Registrar’s Office by the official drop date for this course, failure to do so will result in your receiving a performance grade, usually an “F.” If you drop a class or withdraw from the college before the official drop/withdrawal deadline, you will receive a “W” (Withdraw) in each class dropped. For more information about drop deadlines, refer to the current printed Credit Class Schedule, contact the Admissions/Student Records office at 972-238-6100 or 6101 (Thunderduck Hall, T170), or contact the school office.

Repeating a Course: Effective for Fall Semester 2005, the Dallas County Community Colleges will charge additional tuition to students registering the third or subsequent time for a course. All third and subsequent attempts of the majority of the credit and Continuing Education/Workforce Training courses will result in additional tuition to be charged. Developmental Studies and other courses will not be charged a higher tuition rate. Third attempts include any courses taken at any Dallas County Community Colleges since the Fall 2002 semester. See third attempt to enroll in a course at http://www.dcccd.edu/thirdcourseattempt

Academic Progress: Students are encouraged to discuss academic goals and degree completion with their instructors. Specific advising is available throughout the semester. Check "7 Steps 2 Success," www.richlandcollege.edu/admissions/process.php, for more details.

The QEP provides techniques, practices, and tools to help students develop the habits, traits or behaviors needed to be effective and successful lifelong learners in college and in life. For more information, please log onto http://www.richlandcolleg/qep2013/.

Financial Aid: Your instructor is required by law to validate/certify your attendance in your on-campus or online course(s) in order for you to receive financial aid. To meet the attendance requirement, you must attend and participate in your on-campus or online course(s) prior to the course certification date and continue beyond the course withdrawal date. You must participate in an academic related activity pertaining to the course such as but not limited to the following examples: initiating contact with your instructor to ask a question about the academic subject studied in the course; submitting an academic assignment; taking an exam; completing an interactive tutorial; participating in computer-assisted instruction; attending a study group that is assigned by the instructor; or participating in an online discussion about academic matters relating to the course. In an online class, simply logging in is not sufficient by itself to demonstrate academic attendance. You must demonstrate that you are participating in your online class and are engaged in an academically related activity such as in the examples described above.

Academic Honesty: Scholastic dishonesty is a violation of the Code of Student Conduct and may result in an F grade in the course. Scholastic dishonesty includes, but is not limited to, cheating on a test, plagiarism, and collusion.
As a college student, you are considered a responsible adult. Your enrollment indicates acceptance of the DCCCD Code of Student Conduct published in the DCCCD catalog at http://www1.dcccd.edu/cat0506/ss/code.cfm (Select Purpose)
