Texas Concept-Based Curriculum
El Centro College ADN Program
RNSG 1137 – Professional Nursing Concepts III
Sections: 51110, 51120, 71130, 51351, 51352, 51353

Course Description
Application of professional nursing concepts and exemplars within the professional nursing roles. Utilizes concepts of clinical judgment, ethical-legal, evidenced-based practice, patient-centered care, professionalism, safety, and team/collaboration. Introduces the concept of quality improvement and health care organizations. Incorporates concepts into role development of the professional nurse. This course lends itself to a concept-based approach.

Course Objectives
Upon completion of this course the student will:

1. Discuss the scope of practice in professional nursing roles.
2. Uses clinical reasoning and evidenced-based practice outcomes as the basis for decision-making and safe patient-centered care.
3. Describe the legal-ethical parameters for professional nursing practice as related to selected exemplars.
4. Communicate and manage information using technology to support decision-making to improve patient care and delivery system.
5. Apply principles of leadership/management including delegation.

Course Outline

Clinical Judgment
- Clinical-decision making
