RNSG 2138 – Professional Nursing Concepts IV  
Sections: 51120,71130,51351,51352,51353

SEMESTER HOURS  1  
CONTACT HOURS  LECTURE: 1  LAB: 1  
PREREQUISITES:  RNSG 1538,1137, 2363  
COREQUISITES:  RNSG 2539, 2360

Course Description
Integration of professional nursing concepts and exemplars within the professional nursing roles. Synthesizes concepts of clinical judgment, ethical-legal, evidenced-based practice, leadership and management, patient-centered care, professionalism, safety, and team/collaboration through exemplars presented in the HCC course. Emphasizes concept of quality improvement and introduces health policy. Incorporates concepts into role development of the professional nurse. This course lends itself to a concept-based approach.

Course Objectives
Upon completion of this course the student will:

1. Integrate the attributes and roles of the professional nurse into practice.
2. Uses clinical reasoning and evidenced-based practice outcomes as the basis for decision making and comprehensive, safe patient-centered care.
3. Integrate principles of quality improvement and safety into nursing practice.
4. Make decisions based on legal-ethical parameters for professional nursing practice.
5. Demonstrate professional comportment.

Course Outline
Clinical Judgment
- Clinical Decision-Making
  - Recognize Sepsis
  - Medication Management
  - Prioritization of Care
  - Delegation
  - Contacting Healthcare Provider

Professionalism
- Nursing Organizations & Unions
Teamwork & Collaboration
• Working with Interdisciplinary Teams

Ethics & Legal Precepts
• Whistle Blowing
• Safe Harbor
• Obligation to Report
• Risk Management
• Advanced Directives

Evidence-Based Practice
• Best Practices and Standards
• Develop a Question (PICO)

Health Policy
