COLLEGE POLICIES

Class Attendance
Online students should expect to spend as much time participating in class as if they attended class weekly and completed the homework outside of class. There are specific deadlines in this class *it is not self paced*. You may always work ahead! It is also the responsibility of the student to consult with the instructor if you have any concerns. Once enrolled in the course, it is the responsibility of the student to withdraw from the course should that become necessary. *Instructors will not automatically drop students who have stopped attending class.*

Drop/Withdrawal Policy
If you are unable to complete this course and want to receive a “W”, you must withdraw from the course by the withdrawal date listed on the Assignments Calendar page of this syllabus. Withdrawing from a course is a formal procedure which YOU must initiate; the instructor cannot do it for you.

Academic Integrity
Students taking this course should complete each assignment themselves. When working assignments, students may ask for help and discuss the issues with each other. On the tests, each student is expected to complete the test by themselves without asking for help. A student may use their book, their prior assignments, and the IRS web site. Submitting the same assignment as someone else, working together, or providing someone else solutions to the assignments, is academic dishonesty and may result in an F in the class.
