DISTANCE LEARNING DEGREE PLANNING AND ARTICULATION INFORMATION

You can earn a complete Associate of Arts or Associate of Sciences degree through distance learning by taking college credit courses via television or "on-line" by computer over the Internet. Some courses may require on-campus orientation and testing, while others will allow you to complete all of the work from your home or office. While the content, credit and transferability for these courses are the same as for similar courses taken on campus, the learning activities will vary depending on the type of delivery you choose. In addition, there are a number of four-year colleges now offering the complete Bachelor’s degree by distance. We currently have articulation agreements with some of these colleges.
