SCIT 1407: HUMAN ANATOMY AND PHYSIOLOGY
ONLINE COURSE SYLLABUS
SUMMER, 2015

Instructor: Dr. Grace Rutherford
Email/telephone: grutherford@dcccd.edu, 972-965-2956
Technical Support: Connect 800.331.5094

Course Description
An applied systematic study of the structure and function of the human body designed for students considering a career in the health field. Includes anatomical terminology, cells, tissues, and the following systems: integumentary, skeletal, muscular, nervous, and endocrine. Emphasis is on homeostasis.

Textbooks (Lecture and Lab)
· Hole’s Human Anatomy & Physiology, 13th edition, Shier
· Connect Access
  ➢ Purchase from the web site provided in eCampus.

A student of El Centro College is not under any obligation to purchase a textbook from a university-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer. THECB TAC Rule 4.218 (c)

Course Prerequisites
Must have college-level reading and writing skills. Prior enrollment in Biology 1406 or Biology 1408 is recommended for those with no previous high school biology. Previous experience with on-line courses is highly recommended.

Time Commitment
Successful performance in the course will take a time commitment of approximately 20 - 24 hours/week of your time.

Technical Support
Although the system that you will be using for this course can be reached through the computer labs at any DCCCD campuses, the student is responsible for required equipment and technical support. If you are having problems with: ➢ Connect, please call 800.331.5094

Attendance/Participation
Students are required to document attendance and participation in this course through participation and completing assignments, quizzes, and tests on time. Check for new message each time you log in. Changes and other important information will be posted on this page as necessary, and being unaware of the available information will not be accepted as an excuse for failing to comply with it.

Contacting Instructor
The best way to reach the instructor is by email. The instructor will reply by email within 24-48 hours, Monday through Friday. The instructor is not available on weekends or holidays. An email sent Friday afternoon may not be read until Monday afternoon.

Study Guide
A study guide is listed for each of the 13 chapters. This is your primary study tool for the proctored tests. It outlines what you need to know for lecture and lists the images you are responsible for in lab. Do NOT turn in for a grade.

Assignments and Tests
Learn Smart Assignment
· Required for each chapter. Learn Smart assignment must be completed within the week assigned for full credit of 10 points. No late work accepted.
· Due at 11:59 PM Sunday of the week assigned
Chapter and Lab Homework

- **Required** for each chapter. Homework assignments reinforce the concepts for the chapter. They are designed to make you think. **Multiple attempts are allowed.** Only highest attempt score used for grade. 10 points possible for chapter homework and 5 points possible for lab homework. Late work will receive a **10% deduction for each day after the due date.**
- Lab involves:
  - 1) Completion of interactive homework and 2) identification of structures from Anatomy and Physiology Revealed (APR).
  - Lab Quiz and Proctored Test lab questions will come directly from APR.
  - Students should use the “content code” provided in the title of each lab to access the required images for the chapter. The content code is also listed in the study guide.
- Due at **11:59 PM Sunday** of the week assigned

Chapter and Lab Quizzes

- **Required** for each chapter. Quizzes consist of 8-10 questions with 10 points possible for each quiz. The quizzes are designed to be taken at home WITH YOUR BOOK CLOSED!! Quizzes are located chapter folders of the Connect course. **A 15% deduction** will be taken for exceeding the time limit, a **50% deduction** will be taken for exceeding the time limit by 5 minutes or more, and a **10% deduction will be taken for each day late.** Quizzes are due Sunday of the week they are assigned.
- Quizzes are designed for you to gauge your understanding of the material prior to taking the Proctored Tests. Students that score below 80% on the quizzes are strongly encouraged to review the material again before proceeding to the next chapter’s material. Should you have repeated computer difficulty with quizzes, you will be required to take them at a specified location, including under the instructor’s direct supervision at El Centro College.
- The quizzes may include multiple choice, true/false, labeling, identification, and classification questions. Lab quiz questions are taken directly from Anatomy and Physiology Revealed (APR).

Proctored Tests

- Each Proctored Test consists of 50 questions @ 2 points each worth a total of 100 points. The questions are composed of lab (1/3) and lecture (2/3) material questions. The tests can be accessed through the **Proctored Tests** title at the top of the Connect course page. When you click on the desired test, you will be prompted for a password that a testing center employee will enter for you. This testing procedure will allow the program instructor to effectively verify enrolled student completion. The results for the proctored tests are score only. If you wish to review the questions with correct answers, please make an appointment with your instructor.

- Typically, unless otherwise noted, proctored tests are proctored at the main campus **ECC, NLC, BHC or EFC Assessment/Testing Center.** Richland, Mountain View, and Cedar Valley are NOT approved proctoring locations. Proctored Tests will only be available the days they scheduled in the syllabus. It is the **student’s responsibility** to verify the Testing Center hours and to adjust their schedule accordingly to take the test within the prescribed time. **Saturday testing should be completed early to allow for lines and unforeseen campus closures.** There is a **15% deduction** taken for exceeding the time limit. Any test taken beyond the due date and due time, will receive a **10% deduction for each day late.** No late tests will be accepted after 11:59 PM on the last day of class. Should you have repeated difficulty with tests, you will be required to take them at a specified location, including under the instructor's direct supervision at El Centro College.

- **Tests are available during testing center hours Friday, Saturday, and Monday.** Testing Centers are closed on Sundays. Hours are shorter on Saturdays. **Eastfield Testing Center is closed on Saturdays. Testing centers stop taking students at a certain time before closing**—contact the testing center for specifics and their policies.

- **Late or early tests must be scheduled with the instructor.**

- **If the system should fail during an exam, ask the testing center to telephone the instructor, immediately email the instructor and text if a ble. Call the instructor prior to leaving the campus.**

- Distance education students may arrange to take their tests at a local university, military base (if applicable), or college Testing Center. Distance notification, eligibility, and alternate testing location information must be
arranged with the instructor within the **first week of class**. You are responsible for locating a proctor and any fees involved. You must contact the instructor with the name, title, telephone number, and email address of the contact person at the testing center that has agreed to proctor.

**Extra Credit Policy**
Please do not ask, no extra credit points are allowed. I must treat everyone the same due to the competitive nature of this course.

**Grade Determination**
The grade for the course will be based on a total of 1055 points distributed as follows:

- **Orientation Quiz**: 15 points
- **Learn Smart**: 120 points (lowest dropped)
- **Chapter Homework**: 120 points (lowest dropped)
- **Chapter Quizzes**: 120 points (lowest dropped)
- **Lab Homework**: 60 points (lowest dropped)
- **Lab Quiz**: 120 points (lowest dropped)
- **Proctored Tests (6)**: 600 points
- **Total**: 1155 points

The total number of points will be translated into a letter grade as follows:

- **A** = 90 - 100% 1040 – 1155 points
- **B** = 80 - 89.9% 925 – 1054 points
- **C** = 70 - 79.9% 810 – 924 points
- **D** = 60 - 69.9% 693 - 809 points
- **F** = below 60% Below 693 points

- Grades are located under the **Report** tab in the upper right hand corner of your **Connect** course page.
- Your current grade can be calculated by 1) adding all of your points (highest homework attempt only), 2) adding the points you would have received if you had made perfect scores on the same assignments, then 3) dividing the number earned by the points possible.

**Core Curriculum Objectives**

**End of Course Outcomes**
Identify the structure and explain the function of cells and tissue; identify the components and explain the physiological mechanisms of the following body systems: integumentary, skeletal, muscular, nervous, and endocrine; and apply anatomical terminology to describe the processes these systems use to maintain homeostasis of the human body. (CIP 26.0403)

**Institutional Policies**

**Academic Honesty**
Academic dishonesty (cheating) will not be tolerated in either lecture or laboratory sections of the course. If cheating is observed, points for that activity will be disallowed, and grades of zero given for cheating may not be dropped. Academic dishonesty includes activities such as copying lab report answers from other students and collaboration with students who have completed Chapter Quizzes and Proctored Tests. **It can be assumed that tests/exams showing the same or similarly missed questions as evidence of dishonesty. All tests involved can receive a score of zero.** Also, students missing similar questions when taking the test at or near the same time will be more closely scrutinized. **Instructor reserves the right to schedule separate testing times for students.**

**Withdrawal Policy**
If you are unable to complete this course, it is your responsibility to withdraw formally. The withdrawal request must be received in the Registrar’s Office before the last drop day. It is **YOUR** responsibility to withdraw from a course. Your instructor cannot initiate this procedure for you. Failure to drop by the deadline will result in your receiving your
actual performance grade, usually a grade of “F”. If you drop a class before the official drop/withdrawal deadline, you will receive a “W” (Withdraw) in each class dropped. **The last day to drop for this semester is June 18, 2015.**

**Disability Accommodations**
Any student who may need accommodations due to a disability should contact the Disability Services Office, Room A110 phone number (214) 860-2411.

**Financial Aid Statement**
Students who are receiving any form of financial aid should check with the Financial Aid Office prior to withdrawing from classes. Withdrawals may affect your eligibility to receive further aid and could cause you to be in a position of repayment by the end of the semester. Students who fail to attend or participate after the drop date are also subject to this policy.

**Stop Before You Drop**
For students who enrolled in college-level courses for the first time in the fall of 2007, Texas Education Code 51.907 limits the number of courses a student may drop. You may drop no more than 6 courses during your entire undergraduate career unless the drop qualifies as an exception. Your campus counseling/advising center will give you more information on the allowable exceptions. Remember that once you have accumulated 6 non-exempt drops, you cannot drop any other courses with a “W”. Therefore, please exercise caution when dropping courses in any Texas public institution of higher learning, including all seven of the Dallas County Community Colleges. For more information, you may access: [https://www1.dcccd.edu/coursedrops](https://www1.dcccd.edu/coursedrops)

**Religious Holy Days Statement**
A student who is absent from classes for the observance of a religious holy day shall be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence if, not later than the fifteenth day after the first day of the semester, the student notified the instructor of each class scheduled on the date that the student would be absent for a religious holy day. A “religious holy day” means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. The notice shall be in writing and shall be delivered by the student personally to the instructor, with receipt acknowledged and dated by the instructor or by certified mail, return receipt requested, addressed to the instructor. A student who is excused under this section may not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination.
