Contacting The Instructor:

It is always better to address issues or problems before they get out of hand particularly when they may impact your grade. So, please feel free to speak with me either before or after class if you have any questions, concerns or requests. However, if you need to discuss something relating to your grade, it’s usually best to email me. In this way, you and I have a record of what we have discussed and agreed to in case we need to review it later.

EMAIL: When sending me an email message, always include your last name in the subject line. And, if your email originates from your own email account, please put both the course number and your last name in the subject line so I will know to get back with you quickly.

TELEPHONE: I am on campus teaching Monday through Friday and available to meet with students as needed. However, because I am often away from my office working throughout the department, it is best to call and leave me a message at my home telephone number (214.352.2991) if you need to speak with me directly. This is the best place for students to leave me a message as I check my voicemail regularly. Please feel free to call me at home any day of the week between 10 AM and 9 PM.

The instructor reserves the right to amend this syllabus as necessary.

Obtaining Final Course Grades Using eConnect:

Final Grade Reports are no longer mailed. Convenient access is available online at www.econnect.dcccd.edu or by telephone at 972-613-1818. Use your identification number when you log onto eConnect, an online system developed by the DCCCD to provide you with timely information regarding your college record. Your grades will also be printed on your Student Advising Report, which is available in the Admissions and Student Records Office, T170.

Attendance Policy:

In order to be successful, students must attend and participate in enrolled courses. Accordingly, attending class is essential and course participation is required. Because a great deal of material is covered in class (e.g., instructor demonstrations), lessons cannot be repeated for those students who show up tardy for class.

The instructor reserves the right to amend this syllabus as necessary.
Late Submission Policy:

Not applicable.

Classroom Etiquette:

Individual instructor’s rules for classroom behavior may vary, but most include the following rules of etiquette:

Please treat students and the instructor with respect. Be aware of the written and/or verbal policies the instructor includes in the syllabus, posts online or includes in any emails. By following the rules outlined below, you will be more successful and risk less frustration with your instructor and fellow students (and be better prepared for university and/or business life).

a. Practice open and honest communication. Keep in mind that nothing can be accomplished if you don’t communicate with your instructor. Further, communicate politely with your instructor if you have a problem. Consider the outcome you want and realize that it’s unlikely to be accomplished if you approach your instructor in an offensive manner, demand the instructor solve your problems, or if you generally act out.

b. Avoid asking for special treatment without good reason. Requests for special consideration from the instructor are just that, requests. You are asking the instructor for a favor. Your instructor must be fair to all students and may not grant your request, or may grant it only with adequate documentation / evidence. Be aware of this and respect the instructor’s decision.

c. Be prepared. Come to class with your materials and supplies prepared to learn, work, critique, and cooperate with the group. Being prepared and able to work with a team are the two most valued skills in the business world!

d. Listen! Listen to your instructor and your fellow students. Take notes if needed. Most problems occur because deep and open listening has not been practiced. Considering what has been said before reacting shows respect for the other person, as well as yourself.

e. Respect other students and the instructor by coming to class on time and (with some exception) putting away electronic devices. Sometimes people do not realize how distracting it can be when someone else is using an electronic device in class. Disrupting class is never respectful in anyone’s eyes! Students are permitted to use electronic devices to take notes in my class. However, it’s not appropriate to text, answer email, surf the Internet, etc., during class.

f. Finally, I expect students to work on course-related activities while in class. Accordingly, students should not work on other assignments or projects during class time. Students are expected to engage with the instructor and other students and participate (as is appropriate).

Thank you for your attention. It is noticed and appreciated by your instructor and fellow students.
