Course Objectives AP II

The goal of this class is to introduce students to the fundamental elements of human structures and functions. Students WOULD identify, explain, and apply the structural and functional concepts to the following systems: the endocrine system; circulatory system; the respiratory system. The student will discuss the digestive organs role in handling food from preliminary tasting to final evacuation and that of the excretory system. The student will also identify the principle structures and functions of the reproductive system and the development of the human body during embryogenesis. The student would also describe how hormones effect change in target tissues. SEE STUDENT LEARNING OUTCOMES (SLO’s) BELOW

Course Objectives: Students’ Learning Outcomes (SLO’s)

After completing this course, you will be able to:
1a. Identify and explain the major gross and microscopic anatomical components of the **endocrine system**
1b. Describe the functional roles of their respective hormones in communication, control, and integration
2a. Identify and explain the major gross and microscopic anatomical components of the **cardiovascular system** (heart and associated blood vessels)
2b. Describe their functional roles in transport and hemodynamics.
3. Identify and explain the major gross and microscopic anatomical components of the **lymphatic and immune systems** and
3b. Describe their functional roles in fluid dynamics along with immune interactions.
4. Identify and explain the major gross and microscopic anatomical components of the **respiratory system** and
4b. Describe their functional roles in ventilation and in the processes of external and internal respiration.
5. Identify and explain the major gross and microscopic anatomical components of the **digestive system** and
5b. Describe their functional roles in digestion, absorption, nutrition, metabolism, cellular respiration, excretion, and elimination.
6. Identify and explain the major gross and microscopic anatomical components of the **urinary system** and
6b. Describe their functional in urine formation and elimination.
7. Identify and describe the physiology of the homeostatic mechanisms which control **fluid, electrolyte, and acid-base (pH) balances**.
8a. Identify and describe the major gross and microscopic anatomical components of the male and female reproductive systems and explain their functional roles in **reproduction and development**
8b. Describe endocrine hormones’ role in reproduction (male & female) and development

Upon completion of this course students would be able to:

1. Demonstrate effective use of anatomical terminology and demonstrate sound knowledge of anatomical structures relating to all core concepts.
2. Demonstrate sound knowledge and understanding of the underlying physiological processes relating to all core concepts.

You MUST take the Final LEC Exam V & LAB 4 to be able to drop your Lowest Lecture & LAB grade scores

- YOU CANNOT DROP THE FINAL (LECTURE) EXAM & LAB 4
- Threaded Discussions are short answers to Case Studies on material topics covered/to be covered in class. Emphasis here is on retention of concepts.

PROCTORED EXAMS:

- ALL Exams are Proctored (= Supervised) at DCCC D Testing Ctrs
- If you are out-of-state/town and taking this Course then you must have DCCC Distant Learning Approve a Proctored Center in your town by completing the Form at the following Link PRIOR to start of Class & ASAP:
  - Return the Original Completed Notarized Form to Dallas College Online (Address atop of Proctor Form)
  - Email me a scanned pdf copy of the Completed Notarized Proctor Form (to start the process faster).

General Course Information for Blended or ALL Online BIOL-2401/2402 A & P I/II

Assignments Deadlines:
- Are due on DUE DATES. No Deadline Extension are granted for any reason(s). Late/Missed Assignments/Exams would be recorded as zero.
- NO EARLY OR LATE EXAM REQUESTS ARE GRANTED
  - Orientations Quiz is an open book for 50 points credit, 1 ATTEMPT ONLY
  - Chapter (Graded) quizzes are also open-book for 100 points each for 2 attempts. BEST attempt recorded
  - Lab Exercise (Graded) quizzes are open book (questions & points vary) 2 Attempts: BEST Attempt Recorded
  - OUR Weekly Schedule: For Online Assignments/Threads is
    - SUNDAY a.m. until SUNDAY MIDNITE (SUBMIT BY 11:55PM)
- Deadlines. Odd things happen in cyberspace—emails get lost, servers disconnect temporarily, and logins fail. Do not wait for the last minute to do your work. Allow time to meet deadlines. Reply and check for replies on every email sent and received. You are responsible for getting the work to me (submitted) on time
- Each Module is as per schedule with 2-3 Lecture Topics/Chapters

Distance Learning is self-directed learning. It requires a high level of responsibility, dedication and self-discipline on the part of the student. In this course, you are responsible for your own work, your own progress and your own grade. In order to succeed, you need to log in to the course regularly to check announcements, participate in discussions and access course content. At a minimum every week students are responsible for completing the following tasks:

- Attend all on-line class activities, including participation in weekly threaded discussion, and small group discussions
- Timely submission of assignments, submitted as instructed.
- Success on Online Courses is very dependent on student's following clearly stated Instructions on Assignments

Attendance. Failure to "show up" for the weekly assignments or threaded discussions will be considered an equivalent of two class-time absences. I will keep track of attendance weekly. Repeated absences of three weeks or more will result in a failing final course grade. No communication for two weeks may result in an administrative withdrawal and affect your tuition reimbursement.

Grade book (eCampus)
- Computerized Lecture/Lab Exams & MHHE-Connect Online Quizzes automatically records into eCampus grade book
- Manually graded Modular Lab Exercises/Threads: I would post/update within 48hours AFTER the deadline (END of MODULE).
- Graded Modular Threads scores are always posted later in the Week after closing date for that Module

Netiquette: Communication Courtesy Code. All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. If I deem any of them to be inappropriate or offensive, I will forward the message to the Chair of the department and the online administrators and appropriate action will be taken, not excluding expulsion from the course.

Reviewing Graded Lecture or Lab Exams.
- Computerized Lecture/LAB Exams scores may be reviewed in my office ONLY during normal office hours by appointment only for up to 3days after the exam deadline. No such access would be granted afterwards.
VISTING OTHER WEBSITES (NOT RECOMMENDED)
DO NOT USE other internet sites. They may have information not relevant to the content you need to learn. I placed what you need to study on the eCampus pages you will see during the semester. This will be the central source for information to help save time in linking to related material. However, if you want to waste time by searching the net for information go ahead. Any additional websites fitting the course contents would be placed under Course Documents/Topics for you.

Notice For Success:
• Pay attention to deadline dates.
• Do Not Fall behind in the schedule.
• Read all directions carefully and understand them.
• Pay attention to details

• Plan ahead!!! Plan ahead!!! Plan ahead!!! Plan ahead!!!
• The Dean of Math/Sciences/The Biology department, and or myself reserve the right to modify the scheduling and/or content of this course during the semester. (I do not foresee this happening)
This Course is a dynamic one and a work in progress.

• DO NOT wait until the last minute or hour to submit tests/assignments/take an Exam.
• I encourage you to study early and do the tests many days BEFORE they are due.
• Print pages that are important and make a note book of the printouts
• Make a study schedule and STICK TO IT. Discipline yourself about this.

Contacting Instructor
• BEST WAY TO REACH ME: email: docp1970@dccc.edu
• Call me at the office with questions about the course or anything relating to Anatomy & Physiology and your learning, reading or testing-- NOT COMPLAINTS
• OFFICE HRS: 972-273-3251. When you call leave a message. I will do my best to return the call.
Catch me during these hours—
Monday through Friday from 7:00 am-8:00am; AND PER SYLLABUS
• Learn how to use your computer. If not, have someone else show you how. DO not call me with computer problems, please.

Responding to email. I will check my email daily. I will respond to course related questions within 24–48 hours. I will post assignment due dates in the course Modules/eCampus and through updated messages just as I would in a regular class. Comments on formal assignments may take up to two weeks but probably less than that. I ask that you notify me when you have received critiques from me on your various assignments.

Your email Account:
Be sure to have a school email account and updated personal information on eConnect. If I sent a batch email out to you and the class for an announcement, and if it is returned (as undeliverable), I have no other way of reaching you. That responsibility is on you and not on me!

COMMUNICATION REMINDER:
You would need to be more specific in ALL future communication about the class:
• Your Full Name
• Course & Section #
• Specific Question: Chapter Quiz Assignment [Ex: CHP: 26: Special Senses question # 13]

This would allow me to go directly into your Course/Assignment, resolve the problem and respond to you much faster. There’s a several classes just like yours with 200+ students (AP I & AP II) taking my classes (Hybrid/Online & Oncampus). I cannot identify you and what class or section you are in by your email handle.
Discipline/ Course/ Department/Policies

- **Late Paper (Assignment) Policy:**
- Are due on DUE DATES, No Deadline Extension are granted for any reason(s). Late/Missed Assignments/Exams would be recorded as zero.
- NO LATE LAB EXERCISES/ASSIGNMENTS WILL BE GRADED AFTER DUE DATE. SUBMIT YOUR ASSIGNMENTS BEFORE 11:55PM FOR FULL CREDIT
- **MAKE-UP POLICY:**
  - NO MAKE-UP LAB OR LECTURE EXAMS. PERIOD!! Due to time and lab space constrains
  - NO TIME EXTENSIONS FOR ANY REASON: THERE ARE NO EARLY OR LATE EXAMS
  - THEREFORE, PLAN ACCORDINGLY. POOR PLANNING ON YOUR PART DOES NOT CONSTITUTE AN EMERGENCY ON MY PART.
  - JUSTIFIABLE EXCUSE: Should you have a Justifiable Documented Excuse for missing one exam (i.e. a VERIFIABLE signed doctor's note (I WILL CALL the physician) on Clinic letter head explaining reason for your absence, Hospital Admission Notes, a funeral program with your name listed as a family or friend, or a police report saying you were in an accident, etc. at the time of the exam) at the discretion of this instructor, you may possibly replace your missed exam grade with your next exam grade but NOT for your Final exam. This may apply to one exam only.

**Student Responsibilities:**
- Please Take Responsibility for your education.
- It’s your Career, put in your BEST Effort Forth Every time & Every DAY
- You would need Anatomy & Physiology EVERYDAY of your Medical career (Unlike any other courses):
  - Therefore, MASTER IT NOW!! MASTER IT NOW PLEASE!!!

The Student Code of Conduct prohibits academic dishonesty and prescribes penalties for violations. According to this code, which is printed in the college catalog, "academic dishonesty", includes (but is not limited to) cheating, fabrication, facilitating academic dishonesty, plagiarism, and collusion". Scholastic dishonesty includes but is not limited to cheating, plagiarism, submission for credit of any work or materials that are attributable in whole or in part to another person, photocopying an exam, taking an examination for/assisting another person, any act designed to give unfair advantage to a student or the attempt to commit such acts.” Distribution of exams falls within these guidelines.

Academic dishonesty/CHEATING ON ANY EXAM WOULD RESULT IN the following sanctions, including, but not limited to:

2. **INDICATED (AS CHEATING) ON YOUR TRANSCRIPT.**
3. **SUSPENSION FROM THE COLLEGE**

APPENDIX A

ATTAINING SUCCESS IN ANATOMY & PHYSIOLOGY CLASS

• LECTURE:
  o STUDY PPT LECTURE NOTES PRIOR TO CLASS & AFTER LECTURE CLASS SESS
  o REFER TO TEXTBOOK CHAPTERS AS NECESSARY
  o USE ONLINE CHAPTER QUIZZES (GRADED & PRACTICE) FOR LECTURE REVIEW ALONG WITH DAILY STUDY, ANSWER THE QUESTIONS AS YOU STUDY DAILY, NOT TO MEMORIZE A DAY PRIOR TO TAKING LECTURE EXAMS. IT WOULD NOT WORK
  o DO NOT MEMORIZE ANSWERS TO CHAPTER QUIZZES (GRADED/PRACTICE)
  o YOU WANT TO COMPLETE THE 2 ATTEMPTS ON YOUR ONLINE QUIZZES BEFORE TAKING YOUR EXAM

• LAB/OTHER ASSIGNMENTS:
  o DO ASSIGNED LAB HOMEWORK ONLINE QUIZ EXERCISES PRIOR TO LAB
  o WATCH LAB VIDEOS EXERCISES PRIOR TO LAB
  o IDENTIFY STRUCTURES ON MODELS WHEN IN LAB USING LABLED PHOTOGRAPHS.
    ▪ PAY DETAILED ATTENTION TO ORIENTATION (RIGHT/LEFT) ON THE MODEL/PATIENT
  o COMPLETE WEEKLY ASSIGNMENTS (QUIZZES/THREADS/LAB) ON TIME
  o USE ONLINE CHAPTER QUIZZES (ESPECIALLY PRACTICE W/ INTERACTIVES) FOR LAB/LECTURE REVIEW
  o YOU WANT TO COMPLETE THE 2 ATTEMPTS ON YOUR ONLINE QUIZZES BEFORE TAKING YOUR EXAM

• STUDY TIPS:
  o Studying your Chapter notes, working your Online Chapter Quizzes as guide, etc. before class is essential for understanding the lecture.
  o Complete the appropriate Practice/Graded Chapter Quiz exercises, Interactives/Audio/Visual presentations and review the chapter before attending the lecture.
  o Use chapter Lecture outlines for taking class notes. Study groups may help. Information in this course is garnered from the text and other resources, with guidance from the instructor.
  o Students must use critical thinking to show an understanding of the material, and will not simply be spoon-fed rote information to be regurgitated on exams. Although ample memorization will be necessary, knowledge of a subject is not dependent on rote memorization.
  o Students will have to use their own initiative in using individual study skills in order to do well in this course.
  o A primary formula to any successful endeavor includes a right-minded attitude and persistent effort.
  o Success on Online Courses is very dependent on student’s following clearly stated Instructions AND on Completing Assignments On Time!

**DISCUSSION GRADING:** I use the above Rubric as follows in assigning grades for Discussions:

- 9-10 points: Enthusiastic participation and thoughtful, well-articulated comments that are appropriate and that summarize/synthesize discussion TIMELY. The student actively invites contributions from other members of the group.
- 8 points: Enthusiastic participation and thoughtful, well-articulated comments that are appropriate and that summarize/synthesize discussion TIMELY.
- 7 points: Evidence of an understanding of issues and a willingness to offer interpretations or views that encourage discussion, and/ Non-Timely
