I. COURSE DESCRIPTION

HUMA 1315 – FINE ARTS APPRECIATION

This course is an exploration of the purposes and processes in the Visual and Performing Arts (such as MUSIC, PAINTING, ARCHITECTURE, DRAMA, and DANCE) and the ways in which they express the values of cultures and human experience.

No Prerequisite.

II. Textbook

Essential Humanities 3rd Edition, Kendall Hunt Publisher

The Textbook for this class is available for purchase at the book store on Richland College’s campus called, Follett's Book Store.

FOLLETT'S BOOK STORE is located in the Science Building on campus across from Thunder duck Hall.

The Text is Essential Humanities by Lois Parrott published by Kendall Hunt.

It has a website with it which is purchased with the text and LETTERS for the code are found inside the front cover of the text. You may purchase a code by itself if you have a used text by going to the login to WEBCOM 2 tab. However, the code is not the text. The e book is different. It can be purchased as you see below and the code is included in the price.

Do not purchase the text by mail or by Amazon because it takes too long and you must have the code for WEBCOM 2 which is included in the purchase of the hard copy of the book and also in with the e book.

That text will include the code. If you prefer, you may also purchase a text in an electronic form (eBook) Essential Humanities, 2nd edition and it also is available in an eBook with WEBCOM 2 code included.

The Book is available in the RICHLAND COLLEGE BOOK STORE
http://www.kendallhunt.com/parrott/ to order the PRINTED BOOK (It takes time to ship.)
The text is very understandable and has all the necessary information in it with the WEBCOM 2 companion website which flows along with the web site. I want you to do well in this class and be successful. It works best to buy a new text book since the new text comes with the code in the inside cover. The code is a set of numbers which you place into the login to WEBCOM 2 on your left screen in e CAMPUS. Entering the website, WEBCOM 2 then allows you to see all the customized photos and images, assignments and tests.

The text was organized and written with the college students typically required to take this course in mind. The website goes along with the text and has the assignments and tests built within it to accompany the written material. Also, the test questions come from the text material. This website also has exercises to help you study and prepare you for the test such as flash cards. This is why it is important to purchase the code for WEBCOM 2. The tests are open book.

You may take the test two times. You have two tries on each test since the tests are considered learning tools since we cover 5 disciplines in depth in this class in a very short amount of time. This is the only way we are able to do such a broad based course is such a short amount of time. Your best test grade is the grade that I will count. I then place your best grade into e CAMPUS grade center. The grades for the tests are seen immediately by you in WEBCOM 2 on your computer monitor. I receive your test grade. However, I will not place your test grade into e CAMPUS grade center until all students have had time to take the test 2 times. Your best grade is the one I will see and place into the e campus grade center in e campus myself.

Be on time to take your test or it will disappear and your test is timed. You have enough time to do well on the test if you have done your assignment and studied the unit. You have a couple minutes on each question. You will see the timer on the top right side of your monitor. You may skip a questions and go back to it if you do not know it at first and then remember it later. After you take the test in the text book’s website called WEBCOM 2 you will see your grade on your screen. If you are happy with your grade, you may keep your grade as is. You only have to re take the test again if you want to improve your test grade. The best grade is the one that counts as your test grade. You have 40 multiple choice questions and 50 minutes to take the test. In case the second time taking your test is worse than the first, the best score is the one that I will record into the e CAMPUS Grade Center as your test grade. I will place your best test grade in e CAMPUS in the grade center. Check the calendar to be sure you take it within the due dates.

Your assignments are also seen in the WEBCOM 2 site and they help you learn the material which is also covered in your test. The material is very understandable and the information on the test was covered in the assignment. Students who do the work find that they are very successful in this course. You must keep up with the dates on your calendar and do all assignments and tests.

There are 5 Units in the class. Each Unit has one assignment and one multiple choice test. Unit IV is the Unit over Music. In this music unit, students are able to listen to music and the directions are written on the tab in WEBCOM 2 which is titled Music Library. This tab has the directions written out explaining that the library at RICHLAND COLLEGE has the play list which follows the written work in Unit IV’s text. The text has information written over the
music so that you can click on the name of the musical composition and listen to the music and at the same time you should read along with the text material while listening to the compositions being played on the recordings.

How do you find NAXOS MUSIC LIBRARY? The library page is in the Richland College web site. The directions are in WEBCOM 2 under the tab titled MUSIC LISTENING.

The Music library is on the home page of Richland College’s web site and you will see the word LIBRARY. After you find the word, LIBRARY, look down to the right of the screen and you will see the word, databases. Click on databases. Then you will see the letters in the alphabet. (The ABC’s) Click on N.

Then you will look for NAXOS MUSIC LIBRARY. Click on NAXOS MUSIC LIBRARY. Then you will see very small letters of words and in the center of the page the word play list is the one you will click.

The play list will load and you will click on the title of the musical composition. The music compositions will match the text book and you will read the material in the book about the composer, the style of the period and listen to the music. You will want to read the Unit IV text as you play the EXAMPLES and listen to the musical compositions.

Click on the title of the composition and read in the text about the musical composition, the period of time that the music was written in, and read about the composer who wrote the composition.

III. Definition of Humanities

This course is an exploration of the purposes and processes in the Visual and Performing Arts (such as MUSIC, PAINTING, ARCHITECTURE, DRAMA, and DANCE) and the ways in which they express the values of cultures and human experience.

IV. Grading Procedures Explained

There are 5 Assignments and 5 Tests.

Your work should be in your own words unless you quote individuals. It is fine to quote others if you give a reference and use quotations. Be sure to give references (sources) when you turn in assignments along with your research. Your work should be done by you since you are the student and you are the one who is the person learning the material. If you work in a group, please do your own assignment. If you need help with an assignment talk to me and I will help you. Your tests are multiple choice and over one Unit at a time. They are from the text. They are over the text and exercises are in WEBCOM 2 to help you do well. Be sure to do your assignment since your assignment will help you know the material for the test. I can be reached by email if you have any problems with understanding the assignments or tests. You are given two opportunities to take each test. Your best grade is the one that I will record. I record your test grade in eCAMPUS. I will grade your assignments and place your grade in eCAMPUS also.
Students do well on assignments if they are done on time. I hope that you will look at the calendar and keep track of the due dates. If you do your work, you will do well in the class and find that you are able to keep up with the work.

Please keep in touch with me.

**Grading & Points Explained:**

Each of the 5 Units has **ONE ASSIGNMENT** which equals 100-point value and **ONE TEST** which equals 100-point value.

Each of the 5 Units will have One **DISCUSSION BOARD** which will be worth **5 POINTS** as part of the 100 points earned for each ASSIGNMENT.

---

You have the **Opportunity to EARN 1000 Points Total** for the Course:

<table>
<thead>
<tr>
<th>Possible ASSIGNMENT Points</th>
<th>Possible (EXTRA CREDIT) DISCUSSION BOARD Points</th>
<th>Possible TESTS Points</th>

</tbody>
</table>
Each Unit has One Assignment and One Test. That equals to Two Hundred Points Total.

GRADING EXPLAINED:

- In order to know your Percentage Grade at all times you just divide the number of assignments into your total points.
- For Example, if you have two grades such as a 90 and a 100.
- 90 plus 100. That is two grades so you add 90 and 100 and divide by 2.
- The Grade Percentage is 95% or an A.
- Or for Example a 100% and a 70% would add up to be 170 and divide it by 2.
- The Score would be 85% or a B.
- When you have three grades you divide by 3. When you have 4 grades you divide by 4 and when you have 5 grades you divide the total by 5 etc.

**Grading Scale:**

<table>
<thead>
<tr>
<th>Grade Range</th>
<th>Grade</th>
