COURSE SYLLABUS

BIOLOGY 1406-Online

Summer-I
June 6- July 3, 2019

Section 75440
Lecture online, Labs on-campus

INSTRUCTOR: Dr. Vaishali Khamankar
Email: vkhamankar@dcccd.edu
Telephone: 972-860-3910
Office: C-303-D

OPEN OFFICE HOURS: As per request
Division of Math and Science, P330
Monday –Thursday 8 a.m. - 8:30 p.m., Friday 8 a.m. - 4:30 p.m.

Withdrawal date: June 25, 2019

COURSE INFORMATION:

- Biology for Science Majors I (Biology 1406)
- Section number: 74426
- Credit hours: 4
- Class meeting time: MTWRFSaSu
  - Lecture online, PowerPoints, quizzes, discussions on eCampus, all exams proctored through eCampus- Respondus Lockdown Monitor.
  - Labs on campus: (C-316) M-F 5:45-7:45pm., M-Th and includes 2 Fridays

COURSE DESCRIPTION: An introductory survey of contemporary biology for students majoring in the sciences. Topics emphasized will include the chemical basis of life, structure and function of cells, energy transformations, and molecular biology and genetics. (3 Lecture, 3 Lab.). Coordinating Board Academic Approval Number 2601015103
**COURSE PREREQUISITES:**
One of the following must be met: (1) Developmental Reading 0093 AND Developmental Writing 0093; (2) English as a Second Language (ESOL) 0044 AND 0054; or (3) have met Texas Success Initiative (TSI) Reading and Writing standards AND DCCCD Writing score prerequisite requirement.

**REQUIRED TEXTBOOKS, MATERIALS AND SKILLS:**
*Textbook:* 2 options below- Recommended- *No access to Modified Mastering Biology required. 9th edition is acceptable.*

<table>
<thead>
<tr>
<th>Option 1: From <strong>Follett Bookstore</strong></th>
<th>Option 2: From Elsewhere</th>

**Computer with a webcam and Internet access:** Students require a computer with a reliable internet to access the course, complete and submit assignments and a camera (built-in or attached to the computer) for tests.

**Digital Camera:** A simple digital camera is required to document the set-up and results of the laboratory experiments. Smart phone camera will work.

**Skills:** Typing for lab reports, accessing important website through internet, reading and comprehension, following directions, appropriate communication via email or phone, attaching files to an email, attaching pictures to a document, submitting assignments on eCampus.
## COURSE OBJECTIVES and OUTLINE:

<table>
<thead>
<tr>
<th>Course Outline- corresponding Chapters</th>
<th>Course Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Introduction to Biology</td>
<td>Recognize the characteristics that distinguish living things from nonliving. Identify the tools used in biological studies such as the microscope, experimental design, scientific problem solving and interrelations between science, technology and society.</td>
</tr>
<tr>
<td>2. Basic Chemistry</td>
<td>Define the basic characteristics of matter, the atom, atomic theory and chemical bonding as it relates to the formation of the molecules of life.</td>
</tr>
<tr>
<td>3. Chemistry of Water</td>
<td>Describe the unique characteristics of water that make it essential to life on earth.</td>
</tr>
<tr>
<td>4. Chemistry of Carbon</td>
<td>Recognize the properties of carbon that make it central to the molecules of life and the role of functional groups in the characteristics of carbon compounds.</td>
</tr>
<tr>
<td>5. Biomolecules</td>
<td>Identify the four major groups of biomolecules, their chemical characteristics, the roles they play in life and their basic structural characteristics.</td>
</tr>
<tr>
<td>6. The Cell</td>
<td>Recognize the cell as the structural and functional unit of life while reviewing the cell theory, structure and function, Prokaryotic vs. Eukaryotic and the endosymbiotic theory.</td>
</tr>
<tr>
<td>7. Membrane Structure and Function</td>
<td>Describe the fluid mosaic model of membrane structure. Explain the concept of diffusion, its relationship to cellular transport and various methods of membrane</td>
</tr>
<tr>
<td>8. Introduction to Metabolism</td>
<td>Define energy, its role in chemical reaction and reaction mechanisms and the role of enzymes in biological reactions.</td>
</tr>
<tr>
<td>9. Cellular Respiration</td>
<td>Review the process of cellular respiration and alternative respiratory pathways.</td>
</tr>
<tr>
<td>10. Photosynthesis</td>
<td>Recognize the nature of photosynthesis to life on earth, identify the major steps in the process and environmental factors that impact photosynthetic efficiency.</td>
</tr>
<tr>
<td>11. Cell Communication</td>
<td>Explain the concept of cell communications at the molecular level</td>
</tr>
<tr>
<td>12. Cell Cycle-Cell Division-Mitosis</td>
<td>Review the role of mitosis and meiosis in the lifecycles of eukaryotes, recognizing the basic steps in each process and identifying how they differ</td>
</tr>
<tr>
<td>13. Meiosis</td>
<td>Review the role of meiosis in the lifecycles of eukaryotes and sexual reproduction</td>
</tr>
<tr>
<td>14. Mendelian Genetics</td>
<td>Identify the basic mechanisms of classical genetics and how genes are passed on.</td>
</tr>
<tr>
<td>15. Human Genetics</td>
<td>Identify behavior of various human genes in heredity.</td>
</tr>
<tr>
<td>16. DNA structure and function</td>
<td>Explain how DNA was determined to be the genetic material, its molecular structure and how the structure of DNA relates to its role in genetic continuity and expression.</td>
</tr>
<tr>
<td>17. DNA to Protein</td>
<td>Identify the process of protein synthesis and the expression of the genetic code.</td>
</tr>
</tbody>
</table>

**SPECIFIC COURSE LEARNING OUTCOMES:** Students will master the following

- The concept of the cell as the structural and functional unit of life.
- Basic concepts of chemistry and atomic theory.
- Understanding of the role of biological molecules in the chemistry of life.
- Basic concepts of cellular physiology such as cellular respiration and photosynthesis.
- Basic principles of heredity.
- Basic concepts of molecular genetics including the structure and functions of DNA and RNA in relation to the production of proteins.

**ATTENDANCE POLICY:**

Since this class is online, regularly accessing the course and completing assignments on time is considered attendance. Quizzes/assignments may not be available after the due date. Work required for both-lecture and laboratory- should be done in a timely manner. Each assignment will have a deadline and work
should be submitted on or before the deadline. You may work ahead but any work submitted after the deadline will not be considered. **LECTURE PowerPoints:** are online in eCampus. **LABORATORY experiments** are completed on campus. Students are required to attend all laboratory experiments. **All responsibility of the work is that of the student. All tests should be completed during designated period.** Since, enough time will be given to complete tests, extensions will not be given. Extenuating circumstances will be considered case by case.

**MEANS OF ASSESSMENT:**

Learning outcomes will be assessed by examinations in lecture. Additionally laboratory experiments will be assessed by quizzes and lab practicals.

**TESTING POLICY FOR MATHEMATICS & SCIENCE DIVISION:**

If you need special accommodations you must submit a request to the Disability Services Office in person (A430) or by phone at 972-273-3165 North Lake Disability Services for more information.

**EVALUATION PROCEDURES:**

**LECTURE:** Your lecture is based on the lecture tests eCampus. Lecture average is 70% of the total grade. Chapter quizzes are for practice only, not for grade.

**LECTURE TESTS:** Students will take five lecture tests (Tests 1-5) online from home via Respondus Lockdown Browser with a Monitor. If you are given two attempts for any of these tests, **average of the two grades will be considered. The two attempts MUST be 24 hours apart.** Each of these five tests will be timed and at the end of the given time limit will auto-submit. **The lowest grade of tests 1-5 will be dropped.** If a student would like to take the tests without the time limit, the students MUST inform the instructor. Arrangements can then be made to administer the tests at any DCCCD Testing Center. All lecture tests may have multiple choice and short answer questions related to each unit including the textbook chapter and labs. **Lecture exams will count 70% of the total grade.**

- Unit Test 1: Chapters 1, 2, 3, 4 – to be taken from home via Respondus Lockdown Browser with a Monitor
- Unit Test 2: Chapters 5, 6, 7 – to be taken from home via Respondus Lockdown Browser with a Monitor
- Unit Test 3: Chapters 8, 9, 10 – to be taken from home via Respondus Lockdown Browser with a Monitor
- Unit Test 4: Chapters 11, 12, 13 – to be taken from home via Respondus Lockdown Browser with a Monitor
- Unit Test 5: Chapters 14, 15, 16, 17 – to be taken from home via Respondus Lockdown Browser with a Monitor

**RESPONDUS LOCKDOWN BROWSER WITH A MONITOR:** This program records complete tests taken by students. Students will need a webcam for this. This will ask you to show a Govt. issued ID and then it will match that with your face. It will ask you to show area around you to be sure that you don’t have any material around you. This will also block you from opening browsers other than your test browser in eCampus. **Student tutorials for Lockdown Browser.** This link will show you details about this program.

* **LABORATORY:** Your lab grade is based the experiments in the lab, pre- and post-lab quizzes, formal lab reports and lab practicals. Details will be given under the tab “lab documents” on eCampus. Lab activities count to 30% of the total grade.

**Important:**

- **Respondus Lockdown Browser downloading instructions for all tests:** [Student tutorials for eCampus-Lockdown Browser]
- A student caught opening webpages/browsers other than eCampus while taking a test from the proctored setting will receive a grade “zero” on that test.
- **Before you begin a timed activity- a quiz or a test- be sure to have the electronic device fully charged and a reliable internet access. A second attempt will not be considered in these situations. If you have other unavoidable circumstances like electricity/internet outage in your area or problem with**
eCampus/Respondus be sure to document the incidence with supporting screenshots/emails from authorities etc. for a second chance.

- Student going out of the frame for more than 3 times, each time for more than 5 seconds.
- Video interrupted frame for more than 3 times, each time for more than 10 seconds.
- Not showing the surroundings including: 360 degree view of the location of the test, above the screen, below the screen, sides of the screen and the table top, if the computer is placed on the table.
- There will not be any make up tests. If there are any unavoidable circumstances, each will be evaluated.

**GRADING SCALE:**

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lecture Test (1-5: lowest grade dropped)</td>
<td>70%</td>
</tr>
<tr>
<td>Lab practicals</td>
<td>30%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

Your final grade will be a combination of both lecture and lab, with lecture representing 70% and lab 30% of the final grade with

- 90-100% for A
- 80 to 89% for B
- 70 to 79% for C
- 60 to 69% for D
- Below 59% for F

**DISCIPLINE/COURSE/DEPARTMENT/POLICIES**

Students are expected to fully participate in lecture class and laboratory activities. During testing in a proctored setting, the use of electronics is not permitted. All students are expected to abide by the college Student Code of Conduct.

**NLC STUDENT SERVICES:**

**SCIENCE LEARNING CENTER, NLC Central Campus, P333 (972-273-3273)**

Offers “Free Tutoring”, computers, models, quiet place to study, online learning material

MTWR 9am-7pm, F & Sa 9am -3:30pm

**COUNSELING SERVICES**

Counseling services for personal issues are provided to all students currently enrolled at North Lake College. The services are provided by licensed professionals bound by confidentiality, within ethical parameters, at no charge. With the assistance of a counselor, students are able to identify, understand, resolve issues and develop appropriate skills. For appointments, call 972-273-3333 or visit A 311.

**THE ACADEMIC SKILLS CENTER (ASC)**

The ASC is designed to provide the following assistance to students:

- An ESOL lab with computer access
- Free tutoring for students enrolled in foreign language courses.
- The iRead Lab offers individual and small group tutoring, as well as workshops, to help current students improve their reading, study, and test taking skills.
- The Writing Center to help students clarify writing tasks, understand instructors’ requirements, develop and organize papers, explore revision options, detect grammar and punctuation errors, properly use and document sources, and improve their writing skills.
- The Online Writing Lab (OWL) allows students to submit papers to our writing tutors electronically and get feedback within 24-72 hours. The OWL can be accessed through eCampus.
  - After logging on to eCampus, click on the Community Tab at the top.
  - Type “Owl” in the search field and click “Go.”
Next, click on the double drop-down arrows next to “NLC-OWL2,” and then click on “Enroll.” Once enrolled, students can receive services from the OWL.

The Blazer Internet Lounge with 12 computers, additional open seating, and Wi-Fi Internet access.

For more information or to schedule a tutoring appointment: Come by A-332 or call 972-273-3089.

ECAMPUS
1. Class notes and announcements will be posted on the web on ECAMPUS at "ecampus.dcccd.edu".
2. You are expected to access "ECAMPUS" on a regular basis to be up to date with the class information.
3. Make sure you enter your email address. Let me know if you need help with "ECAMPUS".
4. All students can apply for a free email address/internet access at the Computing Center.

North Lake College TESTING CENTER (Central Campus, A425): 972-273-3160

Central Campus Testing Schedule
Monday - Thursday: 8:30 a.m. - 8:00 p.m. - No tests will be issued after 7:00 p.m. Other cut-off times may be in effect for specific exams by the instructor's direction. All exams collected at 8:00 p.m.
Friday - Saturday: 8:30 a.m. - 3:30 p.m. Other cut-off times may be in effect for specific exams by the instructor's direction. No tests will be issued after 2:30 p.m. All exams collected at 3:30 p.m.

Testing Policy for Mathematics & Science Division: Students taking tests in math and science will NOT be allowed to leave the testing center or the classroom during a test and return to complete the test unless they have a medical reason that is supported by a note from a doctor. If students leave, the attempt for that test will be considered complete without proper supporting documentation.
INSTITUTIONAL POLICIES

ACADEMIC DISHONESTY:

Since the tests are through eCampus, you are NOT allowed to open any web browsers other than “eCampus”. Any student caught browsing on websites other than the class website on eCampus will get on that test.

- Lab activities submitted within a given time line will be graded, others will not be graded.
- If students would like to work in groups of 2-3, they may do so. The results they submit should be theirs with their own picture. Answers of the questions should NOT be exact copies. Students should answer the post-lab questions and the reports in their own words. If plagiarism is caught, all participants will get “zero” on the complete assignment.
- While taking tests from the Testing Center, if students are caught opening webpages other than eCampus they will be given a grade “zero” on the test.

The Student Code of Conduct prohibits academic dishonesty and prescribes penalties for violations. According to this code, which is printed in the college catalog, "academic dishonesty", includes (but is not limited to) cheating, fabrication, facilitating academic dishonesty, plagiarism, and collusion. Academic dishonesty result in the following sanctions, including, but not limited to:

1. A grade of zero or a lowered grade on the assignment or course.
2. A reprimand.
3. Suspension from the college.

This instructor will take very seriously any academic dishonesty offence: an F in the class, suspension from college, and a note on the student’s permanent record will be measures taken by this instructor in response to academic dishonesty. Cheating harms all students, the college, instructors, and society as a whole.

NOTIFICATION OF ABSENCE DUE TO RELIGIOUS HOLY DAY(S): Students will be absent from on campus activity for the observance of a religious holiday must notify the instructor in advance. Please refer to the Student Obligations section of the college catalog for more explanation. You are required to complete any assignments or take any examinations missed as a result of the absence within the frame specified by your instructor.

REQUIREMENTS OF THE AMERICANS WITH DISABILITIES ACT: In accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, a student who feels that he or she may need any special assistance or accommodation because of an impairing disabling condition should contact the ADA/ACCESS Office at (972) 273-3165 or visit Room A-430 at Lake College. It is the policy of NLC to provide reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to contact the ADA/ACCESS Office.

WITHDRAWAL POLICY: If you are unable to complete this course, you must officially withdraw by: June 25, 2019. Withdrawing is a formal procedure which you must initiate; your instructor cannot do it for you. All Dallas County Community Colleges charge a higher tuition rate to students registering the third or fourth time for a course. This rule applies to the majority of credit and Continuing Education / Workforce Training courses. Developmental Studies and some other courses are not charged a higher tuition rate. Third attempt includes courses taken at any DCCCD college since the fall 2002 semester. For further information, click on “Third Course Attempt”

FINANCIAL AID STATEMENT: Students who are receiving any form of financial aid should file the Free Application for Federal Student Aid (FAFSA) with the Financial Aid Office prior to withdrawing from classes. Withdrawals may affect your eligibility to receive further aid and could cause you to be in a position of repayment for the current semester. Students who attend or participate are also subject to this policy. To apply for financial aid in the DCCCD, students should complete the FAFSA (Free Application for Federal Student Aid) on the web.

Financial Aid Certification of Attendance:

You must attend and participate in your on-campus or online course(s) in order to receive federal financial aid. Your instructor is required by law to validate your attendance in your course(s) electronically as an official certification of attendance.
campus or online course in order for you to receive financial aid. You must participate in an academic related activity pertaining to the course such as but not limited to the following examples:

- initiating contact with your instructor to ask a question about the academic subject studied in the course;
- submitting an academic assignment;
- taking an exam;
- completing an interactive tutorial;
- participating in computer-assisted instruction;
- attending a study group that is assigned by the instructor;
- participating in an online discussion about academic matters relating to the course.
- In an online class, simply logging in is not sufficient by itself to demonstrate academic attendance.

You must demonstrate that you are participating in your online class and are engaged in an academically related activity such as in the examples described above.

**REPEATING THIS COURSE:** Effective for Fall Semester 2005, the Dallas County Community Colleges will charge additional tuition to students registering the third or subsequent time for a course. All and subsequent attempts of the majority of credit and Continuing Education/Workforce Training coursework result in additional tuition to be charged. Developmental Studies and some other courses will not be charged at a higher tuition rate. Third attempts include courses taken at any Dallas County Community Colleges since the Fall 2002 Semester.

**TSI Information:** Actual TSI (Texas Success Initiative) is the state required assessment program replaced TASP. The purpose of TSI is to insure students have the skills to be ready for college level coursework. Dallas County Community College District is allowing students to decide when they will take developmental coursework. Demonstrated proficiency in skills through completion of DMAT 0093 or a score on an assessment instrument is required to move to college level math classes. Students must earn a “A”, “B”, or “C” in their developmental class in order to move to the next developmental level or to a college level class.

**STOP BEFORE YOU DROP:** For students who enrolled in college level courses for the first time in the fall of 2007, Texas Education Code 51.907 limits the number of courses a student may drop. You may no more than 6 courses during your entire undergraduate career unless the drop qualifies as an exception. The campus counseling/advising center will give you more information on the allowable exceptions. Remember, once you have accumulated 6 non-exempt drops, you cannot drop any other courses with a “W”. Therefore, exercise caution when dropping courses in any Texas public institution of higher learning, including all Dallas County Community Colleges. For more information, you may access: Coursedrops.

**EXEMPLARY EDUCATIONAL OBJECTIVES**

This course satisfies all of the Exemplary Educational Objectives for the natural sciences. They are:

1. To understand and apply method and appropriate technology to the study of natural sciences.
2. To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses and interpretations both orally and in writing.
3. To identify and recognize the differences among competing scientific theories.
4. To demonstrate knowledge of the major issues and problems facing modern science, including issues that touch upon ethics, values, and public policies.
5. To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.
### Learning Activities, Outcomes, and Assessment

<table>

### Program –Level Objectives for BIOL1406

BIOL1406 develops the following objectives from the Texas Higher Education Coordinating Board:
- Communications: Written, oral
- Communications: Visual
- Critical Thinking
- Empirical & Quantitative Skills

The program level outcomes are assessed by a formal laboratory report on Enzyme Catalysis where students share hypothesis, materials, procedures, observations, analysis and conclusion.
