The article will appear. Read the article and at the end of the article there is a “Quiz”. An announcement will appear asking you if you ready to begin the test. Select begin and the test will appear. Select the best answer for each question. Make sure you click on the submit button at the end of the test. Your test will be graded and the point total will appear in the “My Grades” section of Tools.

Each article has a different number of questions. Each correct answer is worth one point. The total accumulation of points will equate to extra credit points. To get the full 20 points you must accumulate 80 correct answers. View the grading scale for further clarification. Make this an assignment that is enjoyable.

Remember you can do as many articles as you want to reach the 20 points. Extra Credit is a privilege that enables a student to raise their grade. The goal of the extra credit is for you to do additional work to receive "extra credit". By not comprehensively reading the article you are not completing the "extra credit". Anyone who commits academic dishonesty regarding extra
credit will be penalized by reducing their point total by 40 points. All extra credit reading assignments are to be read and answers are to be selected based on the readings. You must read the article and complete the quiz immediately. Randomly selecting answers, skimming the article for answers, speed reading the article, completing the quiz at a later date and/or printing the articles will be considered academic dishonesty. If you complete an article in less than five minutes you are probably committing academic dishonesty. The Extra Credit Article List and the Grading Scale are in the Getting Started section. Extra credit must be completed by the following date: **7/1/2019**.

Extra Credit Point Total Chart

To determine how many extra credit points, you have accumulated just view the Total Point Column in the My Grades section. This gives you the summation of the total number of correct answers. Open up the Extra Credit Point Chart in the Course Document section and view how many correct answers you have and what number of extra credit points it correlates to. Example: 13 correct answers equals 3 extra credit points. 36 correct answers equals 8 extra credit points. 68 correct answers equals 16 extra credit points.

Academic dishonesty policies apply to all extra credit assignments. Anyone who commits academic dishonesty regarding extra credit will be penalized by reducing their total point total by 40 points.

Late Work Policy

Ample time has been allotted to complete each activity. All assignments are expected on or before the deadline indicated in the syllabus. I am certainly willing to work with you through extenuating personal circumstances should the need arise to submit a late essay. Any student that needs to submit a late paper must contact me in advance of the deadline for approval and to make alternative arrangements. You will be required to provide some form of written documentation in order to substantiate a request to submit a late assignment.

If approved, late work will be considered for up to 50% of the original value of an assignment. Late work must be submitted within two calendar days (48 hours) of the original deadline (including weekends and holidays). If the assignment has not been submitted within the time allotted after the original deadline, it will receive a zero. Due to time constraints, late work will not be accepted in the final unit of the course (the final course deadline). Tests, and extra credit are excluded from the late work policy and are due by the stated deadline.
