Discussion forums are an opportunity for all students to discuss pertinent issues related to the chapters being studied. Take this as an invitation to discuss with your fellow students the issues. I will closely monitor the discussions and make comments when necessary. When I think most of the students have commented I will make a comment that you can react to or just read. Check this forum on a regular basis to learn from your peers. Do not make this an exercise in making your comments and never reading the statements again. The more effort you put in the more you will learn. You will all respect each other’s right to think, feel and act differently. All comments will be appropriate. The expectation is you will make a comment by 11:59 PM on the due date. Comments will be considered late if made after the due date and receive no credit. Grading is based on a 0-10 scale. All discussion questions will be posted in the discussion forum section of the course website. Students are expected to post a well defined, minimum of five or more sentence responses. Answers to the question should be either your opinion or factually based. In order to get the full ten points you must have a direct quotation to back up your opinions (paraphrasing or summarizing are not acceptable). Grading will be based on the following scale:

10 points  |  Insightful and factually, referenced based statements (quotes) that are ten or more sentences.
9 points   |  Insightful and factually, referenced based statements (quotes) that are nine sentences.
8 points   |  Insightful and factually, referenced based statements (quotes) that are eight sentences.
7 points   |  Factually or opinioned based statements that are more than seven sentences.
6 points   |  Factually or opinioned based statements that are six sentences.
5 points   |  Factually or opinioned based statements that are five sentences.
4 points   |  Opinion based statements that are more than five sentences.
3 points  Opinion based statements that are less than five sentences.

2 point  Opinion based statements that are less than four sentences and repeat others views.

1 point  I agree with statements more than three sentences.

0 points  I agree with statements

Posted responses should be made during the posted time. The last possible time to post a response and receive credit is 11:59pm of the due date. There will be no credit given for posted responses that are late. You can make as many comments as you want, but you will only receive credit for the first two statements per discussions forum. This means you can earn the full hundred points without getting ten points per response. To receive the maximum credit you must participate in all of the forums. In order to get the full ten points you must have a quote to back up your opinions. In addition, you must respond to at least one classmate's thread on each discussion forum to receive the full ten points. All forums are required with due dates based on groups of three. Below is the grading matrix upon which your grade will be based. **Maximum points 50 for 5 discussion forums.**

I need to be able to check your references so please follow the following recommendations. In order to receive the full ten points you must provide the appropriate citation. Failure to do so will reduce your points.

If you are unfamiliar with how to cite a specific reference, please consult APA reference guidelines at: [http://www.apastyle.org](http://www.apastyle.org/) or [http://libguides.brookhavencollege.edu/apacitations](http://libguides.brookhavencollege.edu/apacitations)
