Course Description
This course is an introductory course intended for students with little or no knowledge of the language. Its aim is to present essential vocabulary and grammar, and to develop the pronunciation, listening, reading, and writing skills necessary for basic communication and comprehension. Customs and cultural insights are also presented.

Course Overview
➢ What is an on-line class?
  • This course is comprised of online lab/homework assignments. It includes the following components:
    ▪ Reading from your text book - Alif Baa Introduction to Arabic Letters and Sounds
    ▪ Online work from the book’s companion web site
  All work is completed online. We'll use the textbook Alif Baa Introduction to Arabic Letters and Sounds and the Text book web site, where you’ll complete your assignments. It is important to keep in mind that this is NOT a self-paced course. You will need to meet certain deadlines throughout the semester. You may work ahead, however. In order to be successful in this course you should be self-motivated and have a good degree of self-discipline.

➢ Time Commitment
  • Successful performance in this course will require a minimum commitment of 14 hours a week. During the short, summer and flex terms, you should plan on 4 times that amount. It is important that you study every day and review the material you have learned several times, including videos and the Companion Web Site activities. Leaving everything until the last few days before the deadline is a recipe for disaster.

➢ Extra Credit Policy
  • Under no circumstances will extra credit points be given.

  • Core Curriculum Intellectual Competencies:
    ▪ Reading: The ability to analyze and interpret printed materials
