PART A. Course Information

1. ARTS 2311. 21508 – Advanced Photography  Course Syllabus  MW 6:10-9:00 pm

2. Catalog Description:
   ARTS 2311 Design III (3)
   This is a Texas Common Course Number.
   Course Description: Elements and principles of art using two- and three-dimensional concepts. (2 Lec., 4 Lab.) Coordinating Board Academic Approval Number 50.0401.53 26

3. Prerequisite: For this section of ARTS 2311, recommended prerequisites for Art Majors: ARTS 2356, ARTS 2357.

4. Student Learning Outcomes:
   The student who successfully completes this course should be able to demonstrate through visual means:
   1. apply the principles and elements of design as engaged in photographic artworks;
   2. communicate and critique projects in the working vocabulary of the course;
   3. use conceptual ability to translate verbalized problems into visual solutions;
   4. demonstrate sensitivity to visual form inherent in the environment as a basis for composition in photographic imaging;
   5. use design elements and principles appropriately in portfolio preparation and presentation;
   6. develop a personal visual vocabulary in photographic media, supported by the application of the elements and principles of design.
   7. apply critical thinking in the facture, interpretation and discussion of artworks.

5. Course Objectives
   This course is a continuation of the study of two- and three-dimensional design principles and elements as engaged in photography as an artist’s medium. Therefore, completion of ARTS 1311, ARTS 2356 and ARTS 2357 or their equivalent is presupposed. Emphasis is on the student’s in-depth investigation of an aspect of the application of design elements and principles to photography as an artist’s medium. Through the exploration of ideas, images and objects, students will develop a personal vocabulary of expression within the medium, along with means of presentation appropriate to the works undertaken. Topics will vary each semester, and are developed in individual consultation with each student. As a continuation of ARTS 2356 and ARTS 2357, ARTS 2311 addresses advanced design topics in photographic imaging and design. The photographic medium is here understood to subsume gelatin silver, chromogenic and other color processes, alternative and non-silver processes, digital photography, manipulated and experimental work, and the utilization of photographic images in book arts. Exploration of this broader field will entail an individual project or series of projects; a brief proposal is due by the date announced at the first class and given in the course calendar. This proposal may be revised, augmented, or supplanted, in consultation with the instructor, as the work develops during the course of the semester. In setting a direction for exploration, this proposal will also form the basis for directed readings in the primary literature of the medium, more broadly in the visual arts, and in cognate disciplines as relevant to the development of the individual student’s project. A reflective journal facilitates the reasoned reflection on the development of the project; the journal is open-ended, and is an instrument for thinking about what one is doing; it will not be graded as such.

7. Instructor: Susan Sponsler-Carstarphen 972.860.4730 ssponsler@dcccd.edu
8. Office Hours: MW 5:30-6:00 p.m. and by appointment
9. Lectures, Demonstrations, Discussions, Critiques:
   In general, except for critiques, classes begin with lecture, demonstrations, introduction of assignments, etc., followed by studio work- ing time. There will be four critiques. Critique dates will be announced the first class day. Critiques normally take the entire class period, and are the studio art equivalent of major examinations; participation is an essential element of the course.

10. Attendance / Participation Expectations:
    Attendance and active participation in class critiques and discussions are essential elements of this course. Consequently, more than three unexcused absences will result in lowering your grade, as will being tardy more than three times. Coming late and leaving early does not constitute acceptable attendance, and will be recorded as absences. Unproductive use of class time, including but not limited to cell phone use, email, and web surfing unrelated to class, is not permitted and will affect one’s grade. Please contact the instructor if you must be absent. Demonstrations, lectures, introduction of assignments and critiques are not repeatable: be in class, on time!

11. The final course grade is the average of grades for all assignments, modified by attendance / participation.
   Evaluation of achievement of student learning outcomes in ARTS 2356 is based on the works produced for assignments, attendance and participation in critiques and discussions. Evaluation of work, and the course grade, specifically addresses the student learning outcomes and intellectual competencies listed above in this syllabus, and the criteria specified below. Twenty completed prints are required over the course of the semester, of which half consist in specific assignments, and half consist in entirely open individual work.
   Evaluation of work will be according to the following criteria:
   • comprehension and conceptual and visual development of ideas within the medium and its processes.
   • comprehension in definition and resolution of technical and aesthetic problems and issues in the works.
   • craftsmanship and presentation.
   • class participation in attendance, effective use of studio time, cleaning up, presentation of work, articulate discussion of decisions in one’s own work and of other’s work during critiques.

Grading assesses the attainment of learning outcomes as manifested in the work produced in the class and in participation in critiques and discussions, and is an average of grades for each of the artworks presented in the course, and will follow these general guidelines:

<table>
<thead>
<tr>
<th>Grade</th>
