Description of Graded Work

Assignments: Students will complete assignments dealing with the functionality of the camera, this will include assignments emphasizing aperture, shutter speed, and long exposures.

Portfolio Project: Students will produce an 8 image print portfolio dealing with a proposed theme

Quizzes: Students will complete a quiz over each assignment in addition they will complete quizzes on basic camera functions and lighting.

Late Work Policy

Every assignment has “on time” points associated with it. These points will show up in a separate column in the grade book from the assignment’s content points. Content points relate to the conceptual and technical part of the assignment. If a student submits an assignment on time they are eligible to redo the assignment up until the end of the semester for a higher grade. If a student knows they cannot meet a deadline they must email or communicate 48 hours prior to the assignment being due and a new deadline can be negotiated which will not result in the loss of “on time points.”
