Course Prerequisites

Course Description
This interdisciplinary course addresses (1) research and theory in learning, cognition, and motivation; (2) factors that impact learning; and (3) application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply learning skills discussed in the course. Students
developing these skills should be able to continually draw from the theoretical models. Critical thinking serves as the foundation for different thematic approaches using a variety of academic disciplines. (3 Lec.)

- Critical Thinking – Learning to think well.
- Information Literacy – Wise use of information to support clear thinking.
- Ethical Reasoning – Learning to think well about right and wrong in human conduct.

**Texas Core Objectives**

The College defines essential knowledge and skills that students need to develop during their college experience. These general education competencies parallel the Texas Core Objectives for Student Learning. In this course, the activities you engage in will give you the opportunity to practice two or more of the following core competencies:

1. **Critical Thinking Skills** - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
2. **Communication Skills** - to include effective development, interpretation, and expression of ideas through written, oral, and visual communication
3. **Empirical and Quantitative Skills** - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions
4. **Teamwork** - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
5. **Personal Responsibility** - to include the ability to connect choices, actions, and consequences to ethical decision-making
6. **Social Responsibility** - to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities

Grading Turn-Around time: All assignments will be graded and earned grades posted under the ‘My Grades’ button in eCampus within seventy-two (72) hours following the official assignment due dates. This means that you may turn in your work prior to the due date, and I may grade it sooner, but my commitment to you is to have everything graded within seventy-two (72) hours after the official due date of the assignment. By clicking on the grade in eCampus you can read my comments. All quizzes and exams are graded automatically as you take them and your
grades will appear in ‘My Grades’ in eCampus immediately following your completion of each quiz.

Your final course grade is based on the total number of points accumulated as applied to the following scale:

- 900 – 1000 points = A
- 800 – 899 points = B
- 700 – 799 points = C
- 600 – 699 points = D
- 0 – 599 points = F
