**TO BE SUCCESSFUL IN THIS CLASS** - In order to be successful, you must read the textbook closely. I would suggest that you highlight vocabulary words and passages that you feel are of real importance. Don’t focus on dates. Dates are not important. The “whys” and “hows” are much more important to me. I would suggest that you also take notes over the reading, just as you would in a lecture class. Students that do these small steps tend to do overwhelmingly better than students that don’t. Also, I am here to help. Please feel free to contact me if there is any problem.

IMPORTANT DATES

This course is largely self-paced, but there are some specific due dates for the exams, assignments, and the final paper. Those dates will be placed on eCampus.

ECAMPUS

Students will need to utilize the eCampus to be successful in this class. Class materials, grades, and announcements will be posted there on a regular basis. All class assignments will be placed on eCampus.

TECHNOLOGY

Assignments are DUE as outlined in the course calendar. Waiting until the last minute can be problematic as issues may arise with computers. Experiencing technological difficulties or not having access to a computer are not acceptable reasons for missing assignment deadlines. Students should plan in advance to complete assignments utilizing resources available to them; for example, a local library or the Eastfield College library and computer lab.

PLAGIARISM

Plagiarism is a very serious offense, and it will not be tolerated by the instructor. Anytime you use material for your writing that has previously been written, you must use a citation.
Simple and honest citation mistakes are understandable, but turning in a paper that someone else wrote, or that you wrote for another course, will result in a failure of the course.
