Course Overview
- What is an on-line class?
This course is comprised of online lab/homework assignments. It includes the following components:

  A. Reading from your text: Enfoques
  B. Online work from the Enfoques Supersite
All work is completed online. We'll use the textbook *Enfoques* which includes access to a Supersite, where you'll complete your assignments. It is important to keep in mind that this is NOT a self-paced course. **You will need to meet certain deadlines throughout the semester.** You may work ahead, however. In order to be successful in this course you should be self-motivated and have a good degree of self-discipline.

- **Time Commitment**

Successful performance in this course will require a **minimum** commitment of 14 hours a week. During the short, summer term, you should plan on 4 times that amount. It is important that you study every day and review the material you have learned several times, including videos and supersite activities. Leaving everything until the last few days before the deadline is a recipe for disaster.

- **Extra Credit Policy**

Under no circumstances will extra credit points be given.

- **Learning Outcomes**

The overall goal of this course is to achieve **Intermediate Level** oral and written proficiency as defined by the American Council of Teachers of Foreign Languages (ACTFL). By the end of this course, you should be able to demonstrate this oral and written proficiency through:

  • Mastery of basic vocabulary and grammar in Intermediate level Spanish necessary to communicate effectively in a variety of situations.

  • Mastery of the basic principles of Spanish pronunciation (letter sounds, accents, and syllabification) in order to be understood by a sympathetic listener as defined by the American Council of Teachers of Foreign Languages.

  • Ability to understand spoken Intermediate Level Spanish in various formats.

  • Ability to speak in Intermediate Level Spanish to various audiences in different situations (interviews, dialogues, etc.) using the correct pronunciation, vocabulary and grammar; implementing different modes of expression and applying critical and reflective thinking and problem solving.

  • Comprehension of a variety of written material in Intermediate Level Spanish and application of critical and reflective thinking.

  • Effectively writing in Intermediate Level Spanish to various audiences in different situations (dialogues, descriptions, narratives, etc.) using the correct vocabulary and grammar; applying critical and reflective thinking and problem solving.

  • Familiarity with social customs and traditions, geographical and historical data, and the arts (folklore, literature, fine arts, performing arts) across a range of cultures in the diverse Spanish-speaking world.

  • An identification and understanding of differences and commonalities within diverse cultures in the Spanish-speaking world.

- **Exemplary Educational Objectives**
