I have over 20 years experience teaching English, ESOL, and Culture Studies. I have over 5 years experience teaching online. My teaching philosophy is that my students and I are a team moving toward the goal of successful completion of the course. I am flexible and understand that things don't always go as planned. I'll work with you when things get tough. I love to communicate with students and provide my cell phone and email address so you can contact me easily. I'd love to see you in my class. You'll have a good experience!
