Relevant Work and Professional Experience

Developed a National Educational Tele Course for Educational TV, with a group of 3 nationally recognized educators through the Annenberg Foundation and coordinated and authored the student workbook for the course. Authored and scripted 4 segments of the tele course in Introductory Programming in the language BASIC.

Reviewed over 100 textbooks and teaching materials for 16 publishing companies during my teaching career. Served on multiple panels for the development of computer teaching materials for both basic computer information and programming courses. Have been the coordinator of Computer Science for over 10 years at Richland College.
