TEACHING EXPERIENCE

Eastfield Community College, DCCCD, Dallas, Texas 2016- Present

Adjunct Instructor of Biology

- Uncompromising advocate of the view that “all students can learn” through facilitation of a learning environment that motivates and encourages students through hands-on exploration.
- Designed and taught Biology for Science Majors (1406) and Biology for Non-majors (1408).
- Coordinated and evaluated laboratory work including hands-on application of course content focused on critical thinking skills.
- Used online learning management systems (Blackboard) to organize content and communicate with students outside of class to encourage clarity and transparency.

A+ Academy, A+ Charter Schools, Inc., Dallas, Texas

Adjunct Instructor - Dual Credit Biology

2016 - Present

- Developed curriculum, assessment, and instruction for first on-campus Dual Credit Biology Course for Non-majors (1408).
- Engaged students through the use of cases-studies and hands-on, interactive instruction.
- Designed laboratory experiences for thirty nine students in first year of dual credit program.
- Utilized online learning system, Schoology, to increase communication and clarity in instructional content.

Science Inclusion Teacher

2012 - Present

- Supports science instruction for all special education students in grades 7-12, approximately 65 students with individual education plans.
- Excels with challenging “At-Risk” students and diverse learners including English Language Learners, retained students, and the behaviorally disruptive.
- Coordinated weekly STAAR night to prepare all students for state standardized testing.
- Science Department Chair 2012-2013 coordinating lab inventory and instructional materials for all science courses in grades 6-12.

R.L. Turner High School, Carrollton-Farmers Branch ISD, Carrollton, Texas

2006 - 2012

Science Teacher and Department Chair

- Lead Biology Teacher sharing exemplar lessons and leading biology PLC for high performing campus of more than 2,200 students.
- Initiated TAKS prep nights for state standardized test success for tenth and eleventh grade students.
- Campus Improvement Team Member contributing leadership skills to solve school-wide issues and advance district-wide initiatives.
- Coordinated laboratory supplies and professional development needs school-wide for science department.

Woodrow Wilson High School, Dallas ISD, Dallas, Texas

2004-2006

Science Teacher and AVID Instructor

- Designed and led instruction for TAKS Recovery Course for students struggling to pass state standardized test.

Ennis High School, Ennis ISD, Ennis, Texas
