Professional Biography

Jameson Gurley is a management consultant specializing in sales and marketing. He was the Founder and CEO of Turtle Creek Associates, Inc., in Dallas, Texas, a full-service business investment consulting firm for commercial and residential real estate investments as well as financial portfolio asset management.

As one of the top strategic planning executives in North Texas, Jameson experienced continued success in increasing client volume and financial portfolio production in various types of secured assets in locations all over North Texas. His ability to assist a vast array of property investors with complex financial transactions, and to work with a number of world-class builders on major Texas real estate ventures, flourished into a loyal following of well over 1,000 satisfied customers from far and wide.

Through the years, Jameson has been a Senior Consultant, Mentor and Instructor retained by numerous supervising brokers to help coach, train and manage new licensees. He is also a marketing and management guest lecturer for higher education curriculums locally. He has been referred to as one of the most enjoyable personalities and trusted training consultants in the North Texas real estate investment market.

From day one, Jameson received impressive reviews from supervisors, colleagues, and customers alike - and became a top producing real estate broker in the city of Dallas. Beginning with Merrill Lynch in 1989, he was awarded the nationally coveted Rookie-of-the-Year Award for newly licensed Merrill Lynch Global Real Estate Consultants. This was just the beginning. Countless awards and impressive accolades have followed his career ever since.

Jameson holds dual master degrees from the University of Texas at Arlington in business administration (MBA) and health care administration (MS/MHA). Jameson is currently focusing on opportunities to teach dynamic, impactful business strategies to future leaders in general business and health care.
